To set up a meeting, I'll need a few details. First, what's your first name?

Ramkumar

Thanks! And what's your last name?

Use the up arrow for prior messages

The screenshot displays the IBM Watson Assistant interface. On the left, a sidebar shows a sequence of steps for a chatbot conversation. The main area shows the chatbot's response, which is a text prompt asking for the user's first name. Below the response is a text input field and a 'Continue to next step' button. On the right, a preview window shows the chat history, including the user's previous message and the chatbot's response. The interface is clean and modern, with a light blue and white color scheme.
